

Doctor Maurice Dray

Beauty And The Best

Doctor Maurice Dray's Philosophy:

“ I like to look at each person's unique features to provide the best aesthetic treatment and enhance their natural, youthful, beauty. ”

MESOLIFT

Doctor Maurice Dray is the founder and pioneer of Mesotherapy and has since customised this formula to create the revolutionary Mesolift. This treatment aims to prevent skin aging by stimulating the fibroblasts through administering injections of revitalising active substances.

It is recommended for revitalisation and hydration of dull, tired skin and to plump sagging tissue. This treatment is a combination of the following revitalising active substances that interact synergistically;

These injections have Biostimulants which have an overall anti-ageing effect on all wrinkles caused by dehydration; they enhance skin luminosity and reinforce cell protection and growth. A series of treatments is required to achieve the best results. Mesolift is usually performed in an initial series of 2-4 treatments spaced 2-3 weeks apart. The effects of the treatment are cumulative. Your body will slowly develop collagen and elastin over time. By injecting Hyaluronic acid and other nutrients into the dermis you will instantly notice a visible improvement in tone, hydration and firmness thus resulting in a clear, attractive complexion. Doctor Maurice Dray's Mesolift for facial rejuvenation includes all of the vitamins required for the good exogenous biological balance of the skin.

10 MINUTE FACELIFT

The 10 Minute Facelift, has been created by Doctor Maurice Dray. It is a non-invasive answer to going under the knife. It uses injections of man-made chemicals called biphasic Tricalcium phosphates (BTCPS) to restructure the jowls by encouraging the skin to produce collagen, the connective tissue that keeps our skin naturally taut when young.

With Calcium Hydroxylapatite, Doctor Maurice Dray has invented a technique of injections that can get a real facelift to literally fight against sagging facial skin hence the '10 Minutes Face lift'.

His success with this treatment is worldwide and has been featured in numerous publications such as; Paris Match, Daily Mail, The Telegraph, Brides & Tatler magazine to name just a few. It is entirely biodegradable and is made up of microspheres

suspended in a gel. It is very effective in restoring the volume of the chin and cheekbones, correcting deep Nasogenian grooves and smoothing bony, wrinkled hands. Immediately after the injections are performed the skin becomes smooth and radiant and over the following eight weeks the product constructs itself a matrix beneath the skin on which grows a fibre rich biological tissue. Effects last from 10 to 15 months. It is non-allergic and there are no secondary effects.

NECKLIFT

The Neck Lift is a safe convenient alternative to traditional surgery. Designed to be less invasive it can reduce sagging around the jawline and neck more quickly and with less risk than the conventional approach. Biodegradable Polylactic and glycolic acid threads are used during this procedure to discreetly hold and reposition skin tissue to stimulate collagen of the skin and create fibrosis to lift and tighten the area. Doctor Maurice Dray's Neck Lift is designed for those experiencing early signs of aging such as minor facial sagging. This innovative treatment can be performed in just one hour, with only local anesthetics. After 6 months the threads dissolve but the lifting effect will last for up to 2 years.

Maurice Dray

Dr Dray is a world class cosmetic dermatologist who invented the Mesolift and highly publicised 10 Minute Facelift. Renowned for giving a radiant glow to the complexion of international A-listers, models and the crème de la crème of society, Dr Maurice Dray is constantly in huge demand. The secret to Dr Dray's remarkable results is always a careful evaluation of each patient's skin and facial structure before customising any of his treatments to the individual's requirements.

With 25 years' experience renowned cosmetic dermatologist, Dr Dray has the ability to turn back the years using only natural methods whilst giving first class results. His vast array of treatments is available at either one of his London, Paris, Barcelona or Madrid clinics.

With flagship clinics based in Paris, London, Madrid & Barcelona Dr Dray also has an exclusive treatment room at the prestigious Bulgari Spa, Knightsbridge, London.
