

# DRAY CHIC

Renowned French dermatologist Dr Maurice Dray has the A-list flocking to his Kensington clinic for his revolutionary 10-minute facelift – not to mention a host of exciting and innovative anti-ageing treatments – all designed to bring out your inner Parisienne

When it comes to ageing gracefully, you only have to look at French women for the blueprint of subtle elegance. It's no surprise that the French lead the way in the anti-ageing arena, and when it comes to the best of

the best, look no further than Dr Dray, Paris's leading cosmetic doctor, whose clients flock to see him from all over the world. And his astonishing treatments are also available for you to enjoy at his hi-tech clinic in London's Kensington.

One of Dr Dray's best-loved procedures is the 10-minute facelift, which increases the skin's collagen fibres, and involves injections of biphasic tricalcium phosphates (BTCPS), a new biodegradable agent composed of phosphate and calcium ions suspended in hyaluronic acid, to create a facelift effect. The results can be seen almost immediately, but within six weeks, the real effects appear – new tissue, an increase in collagen fibres and improvement in elasticity – all of which can last for up to 15 months.

Dr Dray is famously the founder of Mesotherapy and the creator of the Mesolift procedure – a non-surgical treatment that prevents skin ageing by hydrating it and encouraging the natural production of collagen. He has many other, more specific treatments to try, too. To banish cellulite and lose fat, his hi-tech Millenium VIP machine reduces cellulite and burns fat cells. If, on the other hand, your hair is

thinning or falling out, Dr Dray's unique Mesohair treatment is the answer, in the shape of a course of painless scalp micro-injections of minerals, vitamins and DHT blockers (DHT is the hormone that causes hair loss).

When it comes to luscious lips, Dr Dray's motto is 'Never too much but always sexy' – he will shape, enhance and subtly plump your lips using natural hyaluronic acid injections. If you're feeling stressed, anxious or are having trouble sleeping, try Mesostress. Seeking relief for heavy legs and water retention? Try Dr Dray's Mesodrain.

And for a little relaxing indulgence after all this beautification, ask for Oksana, the clinic's expert in reflexology and lymphatic drainage – one of Dr Dray's best-kept secrets.

**Flashskin is a new form of peeling that uses the very best ingredients, including Kombucha, otherwise known as the 'mushroom for long life', to reduce puffy eyes, stimulate the cells and brighten the skin. Parisian women are known to leave the clinic after a Flashskin peeling (with a spring in their step) and go straight out to dinner or to parties, face glowing – with their friends none the wiser.**
