

FLAWLESS

Dr Maurice Dray's range of fantastic treatments ensure Parisians and Londoners alike radiate youthful beauty – minus the scalpel

Ever wondered why a certain class of French women always look so fabulous for their age? Make a note of the name Dr Maurice Dray. Renowned for giving a radiant glow to the complexion of A-listers, models and the cream

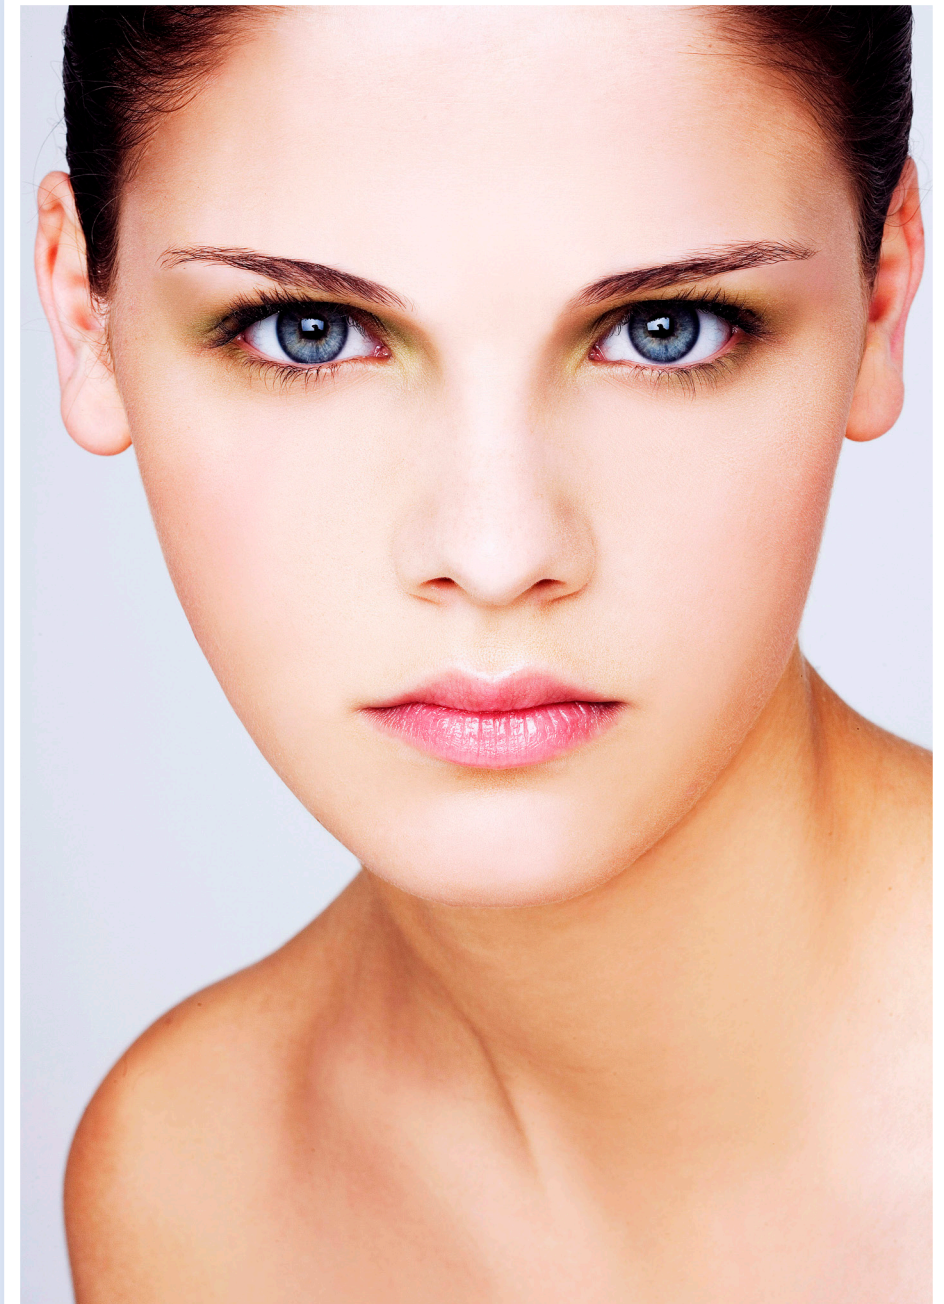

of French society, this celebrated Paris-based dermatologist is in huge demand for his ability to turn back the years – without a scalpel in sight. The key to Dr Dray's remarkable results is a careful evaluation of each client's skin and facial structure before recommending any of his treatments. And luckily for us, Dr Dray has brought his unique style of anti-ageing treatments to Kensington, where he has set up a hi-tech London clinic – the latest addition to clinics in Paris, Madrid, Barcelona and Dallas.

As we age, the increasing lack of moisture and slowing of cell renewal lead to a loss of elasticity, tone and suppleness. The result is deeper wrinkles, particularly around the nose and mouth areas, as well as the chin. The cheeks and cheekbones are particularly affected by the loss of volume. To add insult to injury, as our skin becomes less taut, the jawline begins to sag.

Luckily, Dr Dray has a wealth of different treatments up his sleeve that are guaranteed to help counteract the effects of ageing. He is most famous for being the founder of mesotherapy and the creator of the mesolift procedure, a non-surgical treatment that prevents skin ageing by shooting a cocktail of anti-ageing goodies, including aminoacids, copper and zinc, vitamins and hyaluronic acid, into the skin to stimulate collagen production.

And now there's a brand-new treatment being carried out in Dr Dray's clinic that is really wowing his clients. The Total Lift is Dr Dray's secret weapon. Dr Dray injects Emervelle, an amazing product that contains hyaluronic acid, just below the hairline – the effect is a marvellous natural brow lift. Emervelle also works wonders to lift the face and reduce sagging, giving an imperceptibly fuller face – but without the need to resort to surgery. The Total Lift really is the perfect age-defying treatment, a natural way of improving the skin's elasticity and reducing unwanted wrinkles.

If your face is looking fabulous but your hair leaves a little to be desired, Dr Dray's unique mesohair treatment is the answer to hair that is

thinning or falling out. A course of painless scalp micro-injections of minerals, vitamins and DHT blockers (DHT is the hormone that causes hair loss) will afford you lustrous hair before you know it – the perfect frame for a newly refreshed and confident face.
